

PRESENTING:

Electronic Pre-Check-in

Medical Associates of Hudson Valley continues to make strides improving our patient's experience. We are excited to introduce a new secure, user-friendly **Electronic Pre-Check-in Process!**

Pre-check in allows patients to provide medical history, demographics, insurance information, and reasons for the visit as well as complete paperwork prior to the visit by using their mobile phone, computer or tablet!

This process will reduce wait time in the office and provide your physician with necessary information for your visit ahead of time!

1 Make sure to look for your patient reminder (text or email) and check in prior to your visit!
